TO WHOM IT MAY CONCERN

Re: Mr Kalino LATU,

This letter serves as a testimony to the character and the musical talents that the above named has acquired and developed from his secondary and tertiary school days.

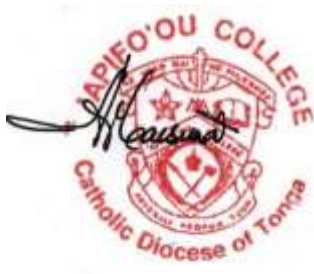

Mr Latu is a product of this college who successfully completed his secondary schooling in 1986. During this time he was noted for his musical abilities not only in music as a subject but also in the practical side of it. He started playing various musical instruments at this time.

After graduating from secondary, he entered the Tonga Teachers Training Institute to pursue a career in teaching. It was at this time that he accelerated his musical talents through trainings in compositions, performance and choir works. It began in the Church sphere and then moved to the social sphere where he formed a well-known singing group at the time who won various national singing competitions. He composed, trained and conducted. Mr Latu's various influential services to the Church and society in Tonga was discontinued when he migrated overseas.

I believe he still has this exceptional musical talent and his service is needed for the development of youth's musical talents wherever he may be. Given that he has also the administration and teaching skills to manage, instruct and motivate a group, then he will have no difficulty in being accountable to any assistance granted to him for such purposes. Mr Latu is an honest and trustworthy person.

Trusting that the information provided is sufficient for your purposes. I hereby remain.

Respectfully Yours

Fr 'Aisake T Vaisima sm
